

for an excellent finish

Belts, file grinder: CERAMIT CR 476 J

Flexible high-performance powerfile belts with ceramic grain and a heat-reducing coating

Product benefits

- High productivity and economic efficiency
- Hard and sharp ceramic abrasive grit ensures high stock removal rates and long tool life
- Low grinding temperatures due to additional temperature-reducing coating
- Very tear-resistant cloth backing for high belt tensions
- Very smooth belt run due to low-stretch backing
- Especially suitable for grinding on robotic grinding machines

Applications

Tank and vessel construction:

- Weld seam stock removal with powerfile belts

Product design

Type:	CERAMIT CR 476 J
Grain:	Ceramic core
Bonding:	Synthetic resin, with active ingredient coating
Backing:	J-cloth
Coating:	-
Grit range:	+ 80/100/120/180/220/240

Stock programme Belts, file grinder: CERAMIT CR 476 J
