

for an excellent finish

Belts, narrow: Brilliance Film FC 164-Longlife VEL

Powerful, very edge-stable and tear-resistant aluminum oxide film belts with anti-clogging coating

Product benefits

- New, light and very flexible film backing with high edge stability and tear resistance
- Excellent surface qualities and tool life with constant stock removal rates
- Very good adaptability to contours
- Semi-open grain coating and optimized long-life coating prevent premature clogging
- Good belt running properties
- Fast product identification thanks to grain size readable on the grain side

Applications

Lacquered wood parts:

- Lacquer sanding on long belt sanding machines
