

for an excellent finish

Belts, narrow: FB 637

Highly tear-resistant abrasive film belts with aluminum oxide grain

Product benefits

- Highly tear and compression-resistant film backing leads to consistent application parameters and narrow tolerance ranges for roughness parameters
- Uniform grain orientation ensures excellent surface qualities
- Very good belt running properties
- High stock removal due to sharp aluminum oxide abrasive grain with high bonding strength
- Good tool life, shorter processing times

Applications

Lacquered wood parts:

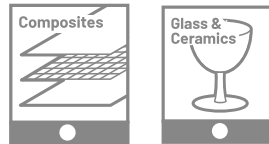

- Lacquer sanding on long belt sanding machines

Product design

Type:	FB 637 (Abrasive belt)
Grain:	Aluminum oxide
Bonding:	Resin
Backing:	Film
Coating:	Closed
Grit range:	P 360/400/500/600/800/1000/1200/1500/2500/4000

Stock programme Belts, narrow: FB 637 (Width x Length)

 SF 18 butt joint
150 x 4800 mm
