

for an excellent finish

Belts, narrow: webrax-MSG

Cloth-laminated silicon carbide non-woven abrasive belts

Product benefits

- Brilliant shining metal finishes due to silicon carbide abrasive grain
- Very good adaptability to contours
- Uniform, fine sanding pattern
- No changes in shape during grinding
- Smooth back of the belt makes it possible to use grinding machines with grinding shoe
- For universal applications: dry and wet (water-, emulsion- and oil-resistant)

Applications

Sheets, plates, coils:

- Finish of stainless steel sheets/coils
- Fine grinding of non-ferrous metal plates before electroplating/anodizing

Product design

Type:	webrax-MSG
Grain:	Silicon carbide
Bonding:	Synthetic resin
Backing:	Non-woven, cloth-laminated
Coating:	-
Grit range:	+ 80/150/180/280/400/500

Stock programme Belts, narrow: webrax-MSG (Width x Length)
