Convolute wheels: webrax- CW

Convolute wheels with a long service life in different grades of hardness (silicon carbide or aluminum oxide grain)

Product benefits

- Very long service life with consistent high quality grinding results
- Fine, repeatable surface finish
- Machining of flat and complex shapes and contours
- Can be used manually or automatically
- Excellent price-performance ratio

Applications

Metal working:

- Deburring
- Edge rounding
- Fine finish

Product design

Type: webrax-CW

Grain: Silicon carbide (S) / Aluminum

oxide (A)

Bonding: Synthetic resin (partially free of

components of animal origin)

Backing: Nylon non-woven

Grit range: 8A-MED (+ 80), 7S-FIN (+ 180)

softest wheel, 8S-FIN (+ 180), 9S-FIN-X2 (+ 180) hardest wheel

Stock programme Convolute wheels: webrax-CW (\emptyset x Width x \emptyset)
