Discs: Brilliance Film FC 164-Longlife VEL

Powerful, very edge-stable and tear-resistant aluminum oxide film discs with anti-clogging coating

Product benefits

- Light and very flexible film backing with high edge stability and tear resistance
- High productivity and economic efficiency
- Uniform finish quality as perfect preparation for subsequent lacquering and polishing processes
- Fast product identification thanks to grain size readable on the grain side
- **Discs:**Optimal dust extraction when using MULTIHOLE discs with a longer service life and significantly better grinding pattern compared to discs with conventional dust extraction
- Belts: Good belt running properties

Applications

Furniture:

• Fine sanding of furniture parts by hand or with hand-operated sanding machines

Automotive Repair Trade:

- Presanding and resanding spray-on putty
- Primer sanding of new parts
- Top coat repair sanding
- Blending in repaired areas
