

for an excellent finish

Discs: CERAMIT CR 456 Z, velour-backed

Velour-backed high-performance disc with ceramic grain and a heat-reducing coating

Product benefits

- High productivity and economic efficiency
- Hard and sharp ceramic abrasive grit ensures high stock removal rates and long tool life
- Low grinding temperatures and longer tool life due to additional Procut coating
- Cloth backing with high edge stability
- For universal applications: dry and wet (water-, emulsion- and oil-resistant)

Applications

Automotive body shop:

- Defect grinding with angle grinders
