

for an excellent finish

# Discs: FineNet FN 915, velour-backed

Very flexible, foam-backed silicon carbide net discs

### Product benefits

- Highly adaptive to intricate contours and radii
- Very long tool life due to low clogging behavior and possible cleaning after use
- Very fine surfaces with consistent roughness depths
- Less post-processing work due to dust-free sanding
- All-purpose - please contact us for details!

### Applications

#### Automotive paint shop:

- Dust-free E-coat and primer sanding
- Manual defect sanding with discs

#### Automotive body shop:

- Defect highlighting with discs on a handpad
