

for an excellent finish

Discs: webrax-0A 713, velour-backed

Powerful, velour-backed, high-density aluminum oxide non-woven abrasive discs

Product benefits

- Very high stability
- Especially suitable for grinding-intensive applications due to high-density non-woven material with increased grit content
- Long tool life due tough aluminum oxide grain

Applications

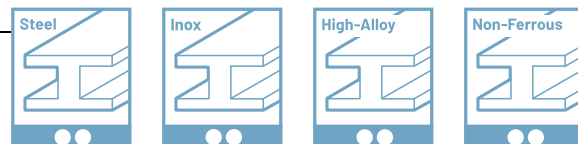

Metal working:

- Structuring and matting of metal surfaces
- Removal of oxide layers and deposits on metal surfaces

Product design

Type:	webrax-0A 713, velour-backed
Grain:	Aluminum oxide
Bonding:	Synthetic resin
Backing:	Non-woven, high-density, velour-backed
Grit range:	+ 180

Stock programme Discs: webrax-0A 713, velour-backed (Ø x Ø)
