

for an excellent finish

Flap discs: CERAMIT CN 466 Z

Extremely stable high-performance flap discs with ceramic grain

Product benefits

- Hard and sharp ceramic abrasive grit ensures high stock removal rates and long tool life
- Very tear-resistant cloth backing for high belt tensions
- Low grinding temperatures due to additional temperature-reducing coating
- Suitable for applications with high grinding pressure
- Especially suitable for dry grinding of stainless steel

Applications

Metal working:

- Use on portable angle grinders for general steel and metal working

Product design

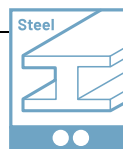

Type:	CERAMIT CN 466 Z
Grain:	Ceramic core
Bonding:	Synthetic resin, with active ingredient coating
Backing:	Z cloth
Coating:	Closed
Grit range:	+ 24/36/40/50/60/80

Stock programme Flap discs: CERAMIT CN 466 Z (Ø x Ø)

Angled shape / glass fabric plate
(80 m/s)

4 1/2" x 7/8" mm
