

for an excellent finish

Flap discs: RB 486 24 YX

High-quality and powerful zirconia alumina flap discs with low grinding temperatures

Product benefits

- Tough zirconia alumina grain ensures high stock removal rates and long tool life
- Low grinding temperatures due to additional temperature-reducing coating
- Especially suitable for grinding stainless steel

Applications

Tank and vessel construction:

- Grinding of welds in stainless steel tanks and vessels

Manual or robotic metalworking:

- Removal of burrs and sharp edges

Metal working:

- Weld seam and surface defect grinding with angle grinders
- Rust removal and cleaning of metal surfaces
- Use on portable angle grinders for general steel and metal working

Product design

Type:	RB 486 24 YX
Grain:	Zirconium aluminum oxide
Bonding:	Synthetic resin, with active ingredient coating
Backing:	YX cloth
Coating:	Closed
Grit range:	+ 40/60/80/120

Stock programme Flap discs: RB 486 24 YX (Ø x Ø)

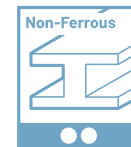

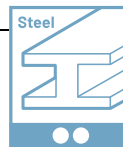

Angled shape / plastic plate (80 m/s)

4 1/2" x 7/8" mm
5" x 7/8" mm
7" x 7/8" mm

Angled shape / glass fabric plate (80 m/s)

5" x 7/8" mm

Very suitable
