

for an excellent finish

Narrow belt: MERCURIT RB 591 Y op

Adaptive longlife abrasive belt with open-coated, high-performance agglomerate grain for grinding tubes and rods

Product benefits

- Longlife abrasive guarantees high process stability thanks to high-quality agglomerate grain
- Excellent results when removing weld seams on stainless steel tubes, especially with smaller diameters
- Consistent roughness values and stock removal rates throughout entire tool life
- Suitable for wet and dry grinding as well as for applications with low to medium contact pressure

Applications

Tubes, rods, wire:

- Grinding of weld seams on stainless steel/steel tubes especially with small radii

Sheets, plates, coils:

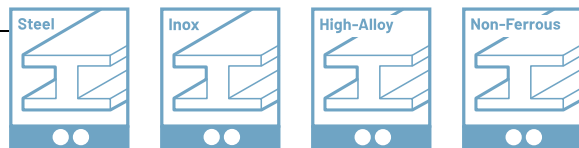

- Grinding of stainless steel and steel sheets and coils

Product design

Type:	MERCURIT RB 591 Y op
Grain:	MERCURIT aluminum oxide (agglomerate)
Bonding:	Synthetic resin
Backing:	Y-PES cloth
Coating:	Open
Grit range:	P 80/100

Stock programme Narrow belt: MERCURIT RB 591 Y op
