

for an excellent finish

Rolls: RB 346 J-flex

Highly flexible aluminum oxide cloth abrasive rolls for demanding hand sanding applications

Product benefits

- Excellent tool life and shorter machining times
- Very adaptable, highly flexible J-flex cloth backing
- Highly adaptive to intricate contours and radii

Applications

Metal working:

- Grinding of metal surfaces to improve the adhesion of subsequent coatings
- Grinding of metal workpieces to improve subsequent joining processes (welding, soldering, etc.)
- Structuring and matting of metal surfaces
- Removal of oxide layers and deposits on metal surfaces

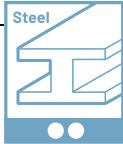

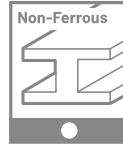

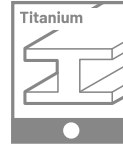

Product design

Type:	RB 346 J-flex
Grain:	Aluminum oxide
Bonding:	Synthetic resin
Backing:	J-flex cloth
Coating:	Closed
Grit range:	P 40/50/60/80/100/120/150/180 /220/240/280/320/360/400/600

Stock programme Rolls: RB 346 J-flex (Width x Length)

	Roll length: 50 m
	19/16" mm
	1 31/32" mm
	1" mm
	3 15/16" mm
	4 17/32" mm
	5 29/32" mm
	7 7/8" mm
	7 7/8" / 200 mm
	100 mm

	25 m
	19/16" mm
	1 31/32" mm
